OUR TEAM:

Our on-site team have worked for our company for many years. They are vastly experienced in all areas of the construction sector. Highly trained and motivated, our technicians make sure every project runs as smoothly as possible, with minimal disturbance to the resident or the end client.

Our office staff are polite and courteous, contacting each resident at the start of each job to arrange their booking - right through to a follow up conversation, to ensure that the residents are completely satisfied with the service that Kingswood have provided.

The two directors have over 50 years of experience between them in the construction sector. Both are passionate about giving people the best possible homes, whilst also providing the industry valuable consultation in fire protection, rainscreen cladding and all manors of house building and repairs.

Working closely with Ark Pest Control, Kingswood also provide pest control proofing. Visiting residents across the country each day, ensuring that people's home are protected from rodents accessing their homes.

PROJECTS:

We are currently building a luxurious five bedroom house for a private client in Kent. Using the latest building practices and in a challenging environment right next to a beach, Kingswood are using all of their construction knowledge to deliver a five star building. This project has an order value of £800,000.

We have designed a large raft slab with our engineer, then used steel frame and Metsec to complete the structural element of the building.

Using photovoltaic panels and a ground source heat pump, we are ensuring that this house is safeguarded from any energy provider issues that may be on the horizon. With air tightness and high levels of insulation, we are also making sure that energy use is at an absolute minimum.

Due for completion in March 2024, this project is currently running on time, and within budget.

EXPERIENCE:

Here at Kingswood, we are proud to have delivered various construction projects across London and the South East. Some recent projects include:

26 flats in Eastbourne. A mix of new build and refurbishment works. Contract value c. £1.4 million

4 commercial warehouses in Watford. Contract value £950,000

A new build house in London. Contract value £450,000

A part new build (including a new basement), and part refurbishment of a grade two listed building in Kent. Contract value £550,000

As can be seen from the above, Kingswood have a vast wealth of knowledge in construction, successfully delivering projects to a wide range of satisfied clients.

SUMMARY:

Kingswood are well placed to carry out all forms of preventive, corrective and reactive property maintenance.

With an emphasis on delivering every single one of our projects in a safe and timely manner, we believe that our company can supply a solution to any problems within the home. From changing a tap, to a full structural repair, we are a 'one stop shop' for any types of construction issues within a home. We also work closely with our end clients, ensuring that problematic schemes are dealt with quickly and effectively.

Kingswood have advanced CHAS accreditation.

All Kingswood staff undergo full health and safety training, and are DBS checked.
